NEW YORK, March 18.—Until the White Star steamship Majestic reaches this port next week it is likely that little that is authentic will be added to the cable account, published exclusively in THE DISPATCH yesterday, of the Drayton-Borrowe duel that was not fought.

The semi-jocular question in the clubs and at Belmont's to-night was: "What will the principals do if either of them reaches New York alive?"

New York society talked industriously today about the affair, and in all the discussions there was a well-defined tendency to sympathize with the husband, Mr. Drayton, who declares that Mr. Borrowe has inflicted upon him "the most grievous injury which one man can inflict upon another."

It is not likely, for instance, that the Manhattan Club, the Knickerbocker Club or the Union Club, of which Mr. Drayton is a member, will accept any such finding without severe questions, particularly that the Lawyers' Club, of which both Mr. Drayton and Mr. Borrowe are members, will be content with it.

From the case as presented, I should say that Mr. Drayton is to be pitied because of his unfortunate choice of seconds. He seems to have selected two Frenchmen who allowed themselves to be made fool of by Mr. Borrowe's superior skill.

Drayton Put in a False Position. "It seems to me that the presentation of the case is one-sided, and that Borrowe's seconds are responsible for it. This is only another indication of their smartness. They have put Drayton on the defensive, where his ought really be the offensive position."

One gentleman, who knows both Drayton and Borrowe well, says: "The decision rendered by the Duc de Morny and his associate is calculated to put Mr. Drayton in a deplorable plight, and as though he had committed the great wrong instead of being the injured party. Under the laws made by the custom in France he did a most manly thing by sending the challenge, but by a smart maneuver his antagonist made him appear in a false position before the world and the wrongdoer is upheld."

WASHINGTON, March 18.—Speaker Crisp and Congressman McMillin and Catchings, in the course of their conference to-day, as the majority of the Committee on Rules, agreed to report to the House to-morrow for consideration a resolution, which, if adopted, as is probable, will open another investigation of the Department of the Interior this time touching a political scandal laid directly at the door of Secretary Noble. The resolution thus to be given the right of way is that introduced two weeks ago by Congressman McKee, of Arkansas, providing for the investigation of the Interior Department's management of the Yellowstone National Park.
